The Advait Tantra School represents a rare flowering of authentic tantra. The seeds of Osho’s re-ignition of the tantric current met fertile soil in a South Africa deeply transforming under the guidance and love post apartheid. In this crucible between east and west has blossomed a deep understanding and remembering of this way.

Many practitioners from around the world visit South Africa to experience the work of the school. Weave of the Heart is an opportunity to experience the work of the school in the original home of tantra, it is a love poem from this school to India.
